

Ethical Materials Sourcing Policy

Industrial Inkjet is committed to sourcing components and materials from companies that share our values around human rights, ethics and environmental responsibility.

Conflict Materials

We support ending the violence and human rights violations in the mining of certain minerals from any conflict region.

We aim that all our products do not contain any conflict materials mined in conditions of armed conflict and human rights abuses.

Modern Slavery

We are committed to respecting human rights and to not participating in modern slavery, human trafficking or other related abuses.

We aim to source our materials from suppliers who adhere to fair trade principles, ensuring fair wages and safe working conditions for all.

Environmental

We are committed to minimising packaging waste by using recycled and recyclable materials, and by optimising packaging designs to reduce material usage.

As part of this commitment to ethical sourcing throughout our supply chain, we encourage our suppliers and vendors to adhere to these requirements as outlined above.
